ATTN: HR/ Career Recruitment Department

To the Recruitment Team,

I am writing to express my interest in within the construction division of your esteemed company. With over 25 years of comprehensive experience spanning both residential and commercial construction sectors, coupled with my recent graduation with a Master's degree in 2022 and ongoing pursuit of advanced studies, I am enthusiastic about the opportunity to bring a wealth of knowledge and expertise to your team.

Throughout my career, I have demonstrated proficiency in various facets of construction, from physical labor to project management and client relations. My tenure as a business owner at Decks-Etc...Contracting has equipped me with the skills necessary to effectively manage projects, lead teams, and ensure timely and budget-conscious completion of tasks in both residential and commercial settings. Additionally, my responsibilities extended to collaborating with architects, coordinating drafting resources, and overseeing subcontractors, further enhancing my capabilities in project execution across diverse environments.

I am proud to have successfully completed my Master of Science in Construction Management program at Texas State University in 2022, further honing my skills and expertise in the field. This academic milestone, coupled with my Bachelor's degree in Construction Engineering Technology from the University of Southern Mississippi in 2021, where I achieved a GPA above 3.6, and my prior Associate degrees in Sciences and Arts, underscores my commitment to continuous learning and professional development.

In addition to my academic accomplishments, I have expanded my skill set through hands-on experience, notably serving as a National Traveling Project Manager for ground-up construction and disaster recovery projects in both residential and commercial sectors. This role required adaptability, problem-solving, and strong leadership. Currently, at *Cotton Holdings*, I manage QA/QC programs across multiple projects, conducting field audits, developing inspection plans, coordinating permitting and compliance, and leading training initiatives to ensure quality, safety, and regulatory standards are met nationwide. This experience has deepened my ability to manage large-scale operations while upholding safety, quality, and regulatory compliance across diverse job sites.

I am enthusiastic about the opportunity to leverage my expertise and contribute to the continued success of your company. Thank you for considering my application. I look forward to the possibility of discussing how my background and skills align with your organization's needs in more detail.

Sincerely,  
Santos Gonzalez
